

**TAP RANGE BROCHURE
APL INTERTAP**

OUR BEST SELLER

B20 - APL Intertap Chrome
B20BN - APL Intertap Brushed Nickel

MODERN STYLING

To suit the majority of modern sinks/kitchens

FIXED SANITIP

No more cracked plastic ends

7" SPOUT

Not too long, not too short. Will still reach the sink from worktop but not overly long so that it's in the way. High enough for kettles and carafes but not too high that it overpowers existing tap

RETAINED SPOUT

Retained by threaded cap and circlip, not just screwed into body

LONG LEVER

Easy for the elderly, children or arthritis sufferers

PLASTIC INTERNALS

Combined with alloy body and brass stud and spout helps reduce cost and lower lead content

'O' RING BASE SEAL

No unsightly black washers

CERAMIC DISC VALVE

For easy, smooth operation and greater reliability. Can also be easily cleaned or replaced in situ

3" OR 4" STUD

With the popular pushfit tail. Simply use large or small lower body to adjust length

OPTIONAL LOWER BODY

Has smaller diameter for tight corners and also allows longer stud for thick worktops

INTERMEDIATE SIZE

Fits right in the middle of the current range
