for your water*

# About Hague Quality Water

More than

# 5

Years in the Water Treatment Business!

Established in 1960, Hague Quality Water is one of the oldest major water treatment manufacturers in the world.

Bill Hague began his entrepreneurial journey in 1960 with just a blank piece of paper and a vision. Fifty years later, his vision has been realised and the blank paper replaced by countless accolades touting his company's contributions to the water treatment industry, numerous awards, and recognition for multiple cutting edge technological patents and product designs.

## Full Size Performance In Compact Design

From our computerized solid-state control to our exclusive directional flow screens, only the most advanced manufacturing processes and materials have been used to build the Hague Maximizer 7180.

- Built-in, Salt and Water Saving Technology
- Convenient Easy-Fill Salt Cabinet
- Quality Materials and Components
- Multi-Function Controller - Operates By Demand Mode or Time Forced Regeneration
- Patented Capacity Guard - Never Run Out Of Treated Water
- Low Maintenance - Just Fill With Salt As Necessary
- Our Patented Packed Bed Mineral Tank Eliminates The Need For A Second Tank

### Compare the Savings with **HAGUE MAXIMIZER 7180**

Our patented **High Efficiency** Design means you use less water, salt, and time compared to other conventional softeners.

## THE COMPACT WHOLE HOUSE WATER TREATMENT SYSTEM

- 1 BLENDING BYPASS VALVE**  
Our full 1 inch valve features 1 inch porting throughout to maximize the water flow and a blending facility to enable you to choose the degree of softness you prefer.
- 2 SYSTEM CONTROLLER**  
Operates in three languages and retains cycle settings indefinitely, even through power failures. The time of day setting remains in memory for up to seven days without power.
- 3 WHOLE HOUSE, BUILT-IN, SELF CLEANING FILTER**  
Filters dirt and sediment down to 20 microns - smaller than the human eye can see. Plus, there's never any cartridges to change and no maintenance is required.
- 4 SAFETY SHUT-OFF SYSTEM**  
Incorporated into our unit to help prevent the possibility of any overflows – just the kind of detail you would expect from us.
- 5 FINE MESH RESIN**  
Our patented mineral tank with its screened distributor system allows us to pack more resin in the tank and backwash our unit with clean soft water, therefore eliminating the need for a second mineral tank.
- 6 PATENTED DIRECTIONAL FLOW SCREEN**

# HAGUE MAXIMIZER 7180

## Dimensions

## Specifications

Max Hardness removed	1426g
Media	20.3L + 1kg ultrafil
Salt used per regeneration	variable 0.5kg - 5.4kg max
Regeneration time	variable 18 minutes - 41 minutes max
Plumbing connections	1" BSP Male
Valve size	1"
Salt storage	40kg
Electrical requirements	220 VAC, 50 Hz to 12V transformer
Max water temperature	49 degrees C
Pressure range (min, max)	1.4 - 8.3 bar
Footprint	292mm x 470mm
Height	650mm
Clearance required above for salt filling	270mm
Shipping weight	39kg

**Comprehensive Limited Warranty:**  
10 years on tank and cabinet. All mechanical parts including electronic controls are covered for 3 full years
