

Sterling Softeners

Instructions to fit EcoFresh replacement filter

- Turn off inlet valve (usually found under the sink)
- Open drinking water tap to relieve pressure
- Close drinking water tap
- Unscrew filter (there will be a small amount of water at the top)
- Remove yellow plug from new filter
- Screw in new filter
- Turn inlet valve back on
- Open drinking water tap (air and black carbon will come out of tap for approx 30 seconds)
- Keep tap open until water runs clear
- Always check filter for any leaks
